

KARTHIKEYAN T

Senior Full Stack Developer

Chennai, Tamil Nadu, India | Open to Remote / Hybrid | +91 6382948440 | keyan2663@gmail.com

[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Full Stack Developer with 4+ years of experience designing and building scalable backend systems and cross-platform frontends using Node.js, Angular, Ionic, and AWS. Proven track record of identifying operational and engagement gaps in high-traffic consumer platforms and shipping solutions end-to-end — including candidate-job matching engines, role-based access control, audit logging, and search relevance systems. Comfortable owning features from API design through UI delivery, with strong focus on clean architecture and performance. Seeking remote or hybrid Full Stack / Backend Engineering roles; open to relocation within Tamil Nadu, Bengaluru, or Hyderabad.

CORE COMPETENCIES

- Full-Stack Web & Mobile Development (Angular, Ionic, React.js)
- Backend & RESTful / GraphQL API Design (Node.js, Express.js)
- Database Design & Query Optimization (MySQL, PostgreSQL, MongoDB, Prisma ORM)
- Caching & Performance Engineering (Redis, BullMQ)
- Serverless & Cloud Architecture (AWS Lambda)
- Agile / Scrum Software Delivery
- Code Review & Junior Engineer Mentorship
- Cross-Functional Collaboration (Product, QA, DevOps)

TECHNICAL SKILLS

Languages: TypeScript, JavaScript, Java, C, SQL

Frontend & Mobile: Angular, React.js, Ionic Framework, HTML5, CSS3, Material UI, Flowbite

Backend & APIs: Node.js, Express.js, RESTful APIs, GraphQL, Prisma ORM

Databases & Caching: MySQL, PostgreSQL, MongoDB, Redis, BullMQ

Cloud: AWS (Lambda, Serverless Architecture)

Tools & Platforms: Git, GitHub, Docker, Jest, NPM

AI-Assisted Development: Claude Code, Codex, Antigravity

Methodologies: Agile, Scrum, Code Review, Production Support

PROFESSIONAL EXPERIENCE

Senior Fullstack Engineer | Matrimony.com Ltd | Chennai, India

Domain: Consumer-facing matrimony / matchmaking platform (high-traffic B2C)

- Develop and maintain full-stack features (Angular, Ionic, Node.js, Express.js) for a production platform handling approximately 200 requests per second across web and mobile.
- Redesigned the API caching layer using Redis, cutting average response time from 100ms to 30ms — a 70% improvement in latency.
- Implemented Prisma ORM over MySQL to streamline data modeling and improve query performance across core services.
- Review code and provide technical guidance to intern engineers as part of a 14-member engineering team.
- Collaborate with Product, QA, and DevOps in Agile/Scrum sprints to ship consistent cross-platform (web + mobile) features.
- Own production support, performance tuning, and issue resolution for backend services.

Software Developer | Centizen Inc / Zenbasket | Tirunelveli, India

Domain: E-commerce platform (Shopify-style multi-vendor marketplace)

- Owned end-to-end development of core Product Management and Order Placement / Payment modules for a Shopify-style e-commerce platform.
- Designed asynchronous processing workflows on AWS Lambda to offload long-running tasks, reducing infrastructure cost and preventing the main application service from blocking on heavy jobs.
- Built and maintained backend APIs with Node.js and Express.js, integrated across PostgreSQL, MySQL, and MongoDB.
- Delivered responsive UI features in Angular and partnered with React.js frontend teams to align on shared components.
- Participated in Agile ceremonies (sprint planning, retrospectives), supporting consistent feature delivery over 3 years.

EDUCATION

B.Tech, Information Technology

Kamaraj College of Engineering and Technology — 2022 | CGPA: 7.8/10

CERTIFICATIONS

- Angular (Intermediate) Certification — HackerRank, Apr 2025
- Claude Code in Action — Anthropic, Jul 2026
- Vibe Coding Fundamentals: Tools and Best Practices — LinkedIn Learning, Jul 2025

AWARDS & RECOGNITION

- Outstanding Developer — Centizen Inc. / Zenbasket, Dec 2024
- Most Determined Employee — Centizen Inc., Dec 2023
- 1st Place, "Data Structures Demystified" Contest — Kamaraj College of Engineering and Technology, Sep 2019
